

Guillaume Aube

BAND STORY

"Guillaume Aubé has been a solo artist since 2005. He released his first solo album in 2006. Guillaume has been in the local music scene since back in 2002 with his Miramichi rock group Deadwood, they released two full length albums before splitting up. Guillaume does all the instruments and singing on his albums. Guillaume has three cd's under his belt, which are: " Slip Away EP" (2006) his first solo effort, with acoustic ballad with a blend of alternative rock songs, that some compared to Blue Rodeo mixed with Sloan. " Harder Side of Life" (early 2007), a more rock oriented album, going back to his roots from the Deadwood days, but holding back enough to create some catchy pop rock songs. " The Lighter Side of Life" (late 2007), A follow up to his previous record. Featuring all acoustic songs. Which is meant to show the " lighter" side of Guillaume Aubé. "
