

Midlife Crisis

BAND STORY

"Midlife Crisis was formed in June 2005 in Sackville ,Nova Scotia. Orignally got together just play a few songs at a party then realized why not take it to the next level. They have played well over 120 shows since that time. While doing mostly cover tunes, they have written a few songs and due to go into the studio in Feb, 2008 to record 8 song CD. The CD will have some original songs plus some tradtional songs from the maritimes. The band focus is mainly vocal and acoustic but in the last year have added professional musicians to compliment the band depending on the venue. Please stay tuned as 2008 is going to be Midlife Crisis break out year."
