

Moses D. Cannibal

BAND STORY

"You know when you're sitting around the camp fire and one of your friends pulls out the geetar for a little family friendly singalong? Well this isn't that type of thing at all, even though it all originated around the camp fire. When my guitar comes out, it's far from Koombaya or however you spell it (not like it really matters) I will be hammering on the guitar like there's no tomorrow, whilst ranting about Pornstars, Gnomes, and Sheep Fuckers. My live shows are nothing to sneeze at. I come forth and blast it out, whether it's to an empty room or a full house. Seven out of ten critics agree, "What in sweet hell was that?!" Be on the lookout for Moses D. Cannibal, he'll date your grandma if you're not careful."
