

Norine Braun

BAND STORY

"Norine Braun is a Vancouver based singer-songwriter who has been called "jazzed up, funk tinged pop." That should tell you how her music defies conventional categorization. Built on a solid foundation of soul, Norine experiments with forms from ambient pop to jazz and rock. Braun herself is an interesting mixture of equal parts Sade, Blondie, Bjork and Norah Jones. Smooth one minute and rocking out the next. It's a rare quality, and one that Braun capitalizes on to keep things compelling, a genuine musical chameleon. Braun has accumulated an extraordinary discography of unpretentious, personal songs anchored by her sweet, confident voice and genteel composition. She crafts tuneful, friendly songs with subtle but effective arrangements, dynamic and graceful and memorable. Now, Braun is back with her sixth CD, *Evolution of the Blood Star*, and on these thirteen tracks Braun shows an even greater depth and maturity. *Evolution of the Blood Star* expands on her penchant for ambient soul pop, and shows this gifted songstress taking bold steps on her soulful journey into self-exploration. The jazz torch song, "Skylight," is evocative and inspirational, anchored by gentle classical piano and a melody as delicate as flower petals. The title track *Evolution of the Blood Star* truly inspires and intrigues with its contagious hook and neo B-52s landscape. Artsy and fun, thoughtful and savvy, Norine Braun will zing to the heart of any listener. Fans Help Fund New Album

In this exciting new project, Acoustically

Inclined, I am looking to fans to support my forthcoming 7th album in exchange for some wonderful gifts and opportunities.

The creation of a recording is exhilarating, thrilling, daunting, and everything in between. And, the experience is totally different every time. While there's so much to plan and prepare, the best things arrive magically on their own. Even greater things happen when you ask someone to join you on the journey. So I am asking you to fasten up your seat belt and come along with me. We'll meet at the end when I send you the magic of your participation and our collective creative work!

Visit the opportunities page for more info and tell me what you think about this idea.
