

We, the Undersigned

BAND STORY

"A bludgeoning union of metal and hardcore, "We, the Undersigned" strives to aggressively displace the status quo. Fully realized in early 2007, WTU have spent the past year playing shows in the Atlantic provinces and writing music for their debut EP, "Bleed the Constants"; with soaring vocals, hip shakin' grooves, and cutting, stigmata inducing guitars, this sound fears only the derivative. "We, the Undersigned" has played with such notable Canadian acts as Protest the Hero, Cancer Bats, The End, and Ten Second Epic--further building upon an extensive East-Coast following; in August 2007, their first major, self-financed tour took the boys to Quebec and Ontario. Having shared a cramped van with Fredericton's "Rusted Dawn" for two weeks, their nosebuds have been permanently sheered off by the constant supply of convenience store induced taco farts; it's no wonder, then, that WTU will be spending the final half of the year saving their allowance money for their very own touring van. Get down into the cellar, Canada, for WTU will return to a city near you for their biggest tour yet in April 2008. "
