BAND STORY

"Rock Johnson - Lead Vocals
 Lex Coulstring - Rhythm Guitar / Vocals
 Scott McKenzie - Lead Guitar
 Tim Garagan - Bass
 Craig Brown - Drums

Described as a sonic assault to both mind and senses, Chaos Theory has quickly captured a strong and loyal fan base. With an in your face approach to modern heavy melodic rock, they have molded an edgy and catchy sound that appeal to both metal and non-metal fans alike. In addition to moulding their sound since 2008, Chaos Theory has also generated a favourable reputation for their live performances. Fans of heavier melodic hard rock like Three Days Grace, Sevendust, Godsmack and Finger Eleven, will definitely want to check out Chaos Theory. The band is fronted by singer/songwriter Rock Johnson. He along with members Lex Coulstring (guitar/vocals), Scott McKenzie (lead guitar), Tim Garagan (bass) and Craig Brown (drums) complete this powerful and edgy ensemble. Chaos Theory's recently released debut album consists of eleven melodically angst filled tracks with raw emotion and insightful lyrics. Although their album has received nothing but praiseworthy reviews and critical acclaim, it's the bands live shows and their take no prisoners approach, that leaves fans buzzing for days. The dynamic vocals and hard-hitting riffs set the stage on fire and keep it ablaze throughout the entire show leaving their fans feeling like they didn't just go to a concert but rather fully experienced it. As one fan put it, "If you're looking for a band to see -look no further. This is the band. I can't wait to see them again"
