BAND STORY

"Rock Johnson - Lead Vocals Alex Coulstring - Rhythm Guitar / Vocals Scott McKenzie - Lead Guitar Tim Garagan - Bass Craig Brown - Drums A sonic assault of both mind and the senses define the landscape of Halifax Nova Scotia's alternative metal/hard rock band Chaos Theory. With their epic and modern heavy rock sound, Chaos Theory is quickly capturing a strong and loyal fan base both locally and across the globe. Show bookings and promoting their new songs to be included on their upcoming debut CD is the band's primary focus. Chaos Theory is fronted by Rock Johnson who's powerful and emotional lyrics reflect on society and life. Rhythm guitarist and backup vocalist Alex Coulstring provides hook-filled riffs, uncompromising drive and ominous screams, while lead guitarist Scott McKenzie delivers soulful, melodic and energetic leads. The band's backbone is paced by the thundering bass work of Tim Garagan and intensively driven by Craig Brown's versatile, solid and progressive drumming. The band draws a compelling combination of influences from heavier groups such as Avenged Sevenfold, Godsmack and Rammstein to grunge and modern rock bands like Filter, Alice In Chains and Three Days Grace, with a mix of classic rock legends including Led Zeppelin, Van Halen and Pink Floyd. Chaos Theory's music is packed wall to wall with diversity and vitality. It's unique and catchy sound will appeal to both metal and non-metal fans alike. "
